

LEGACY PARK TRAIL

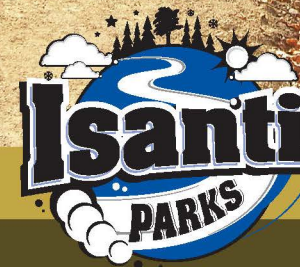

Legacy Park Trail passes through a 20.67 acre natural wooded area owned by the City of Isanti located to the northwest of the Villages on the Rum development.

The trail has been designed to be ADA compliant. A majority of the trail system is surfaced with crushed limestone with some side trails having a simple grass turf surface. The trail gives the public an opportunity to access an undeveloped nature area; and provides an educational opportunity showcasing undisturbed forest land and the Isanti Brook and Rum River basins which contain many types of fauna and flora. Legacy Park offers a unique recreational area for people of all ages to enjoy for generations to come.
