

Public Notice: All Non-Critical City Services Will be Delayed or Suspended

Due to the current impact of COVID-19, please be informed the City of Isanti is performing only critical city functions and services. Critical City Services, as defined by the City Emergency Management Pandemic Plan, are Police, Water and Sanitary Sewer Services.

While water and sanitary sewer service will continue uninterrupted, utility billing services will be delayed or suspended depending on staff coverage. City utility bills that would normally be mailed on the last business day of the month may not be distributed. All late fees will be waived while utility billing services are delayed or suspended. No payment will be required until billing services have resumed. When utility billing services resume, missed billing periods will be added to accounts at that time.

Thank you for your patience and understanding during this challenging time.

Sincerely,

A handwritten signature in blue ink that reads "Josi Wood".

Josi Wood
City Administrator
