FINANCIAL SECTION

CITY OF ISANTI ISANTI, MINNESOTA

FOR THE YEAR ENDED DECEMBER 31, 2019

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council City of Isanti, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Isanti, Minnesota (the City), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Standards

As described in Note 8 to the financial statements, the City adopted the provisions of Governmental Accounting Standard Board (GASB) Statement No. 84, Fiduciary Activities, for the year ended December 31, 2019. Adoption of the provisions of these statements results in significant change to the classifications of the components of the financial statements.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis starting on page 17 and the Schedules of Employer's Share of the Net Pension Liability and the Schedules of Employer's Contributions, the related note disclosures, and the Schedule of Changes in the City's OPEB Liability and Related Ratios starting on page 78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section and combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to basic the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 1, 2020 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

ABDO, EICK & MEYERS, LLP Minneapolis, Minnesota April 1, 2020

Management's Discussion and Analysis

As management of the City of Isanti, Minnesota, (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2019.

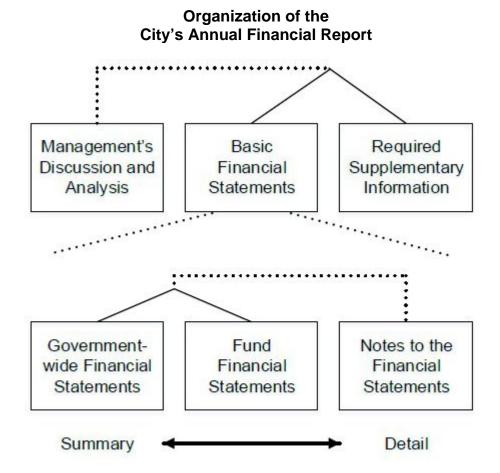

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$45,277,834. Of this amount, \$8,543,416 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$704,441. This was largely a result of operating income within businesstype activities of \$866,729 as well as capital contributions of \$660,344 from connection fees.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$4,546,376, an increase of \$471,632, in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General fund was \$1,254,221, or 32.5 percent of 2019 expenditures and transfers out.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

The following chart shows how the required parts of this annual report are arranged and relate to one another. In addition to these required elements, we have included a section with combining and individual fund financial statements and schedules that provide details about nonmajor governmental funds, which are added together and presented in single columns in the basic financial statements.

The following chart summarizes the major features of the City's financial statements, including the portion of the City's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Major Features of the Government-wide and Fund Financial Statements

		Fund Financial Statements			
	Government-wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds	
Scope	Entire City government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary, such as police, fire and parks	Activities the City operates similar to private businesses, such as the water and sewer system	Instances in which the City administers resources on behalf of someone else, such as developers	
Required financial statements	 Statement of Net Position Statement of Activities 	 Balance Sheet Statement of Revenues, Expenditures and Changes in Fund Balances 	 Statements of Net Position Statements of Revenues, Expenses and Changes in Fund Net Position Statements of Cash Flows 	 Statement of fiduciary net position 	
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus	
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; fund do not currently contain capital assets, although they can	
Type of deferred outflows/inflo ws of resources information	All deferred outflows/inflows of resources, regardless of when cash is received or paid	Only deferred outflows of resources expected to be used up and deferred inflows of resources that come due during the year or soon thereafter; no capital assets included	All deferred outflows/inflows of resources, regardless of when cash is received or paid		
Type of inflow/out flow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid	

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets and deferred inflows of resources and liabilities and deferred outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, culture and recreation, economic development and interest on long-term debt. The business-type activities of the City include water, sewer, storm water and a liquor store.

The government-wide financial statements start on page 31 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and the fiduciary fund.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact by the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 35 individual governmental funds, 7 of which are Debt Service funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General fund and Debt Service fund, both of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements or schedules* elsewhere in this report.

The City adopts an annual appropriated budget for its General fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget.

The basic governmental fund financial statements start on page 36 of this report.

Proprietary Funds. The City maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, liquor store, and storm water.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for each of the enterprise funds, all of which are considered to be major funds of the City.

The basic proprietary fund financial statements start on page 42 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements start on page 49 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found starting on page 78 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented following the notes to the financial statements. Combining and individual fund financial statements and schedules start on page 84 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$45,277,834 at the close of the most recent fiscal year.

By far, the largest portion of the City's net position (77.1 percent) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

	Governmental Activities			Business-type Activities		
			Increase			Increase

City of Isanti's Summary of Net Position

An additional portion of the City's net position (4.0 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position*, \$8,543,416, may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities.

Governmental Activities. The City's net position increased \$704,441 during the current fiscal year. Governmental activities decreased the City's net position by \$448,760. Significant changes from the prior year are noted below:

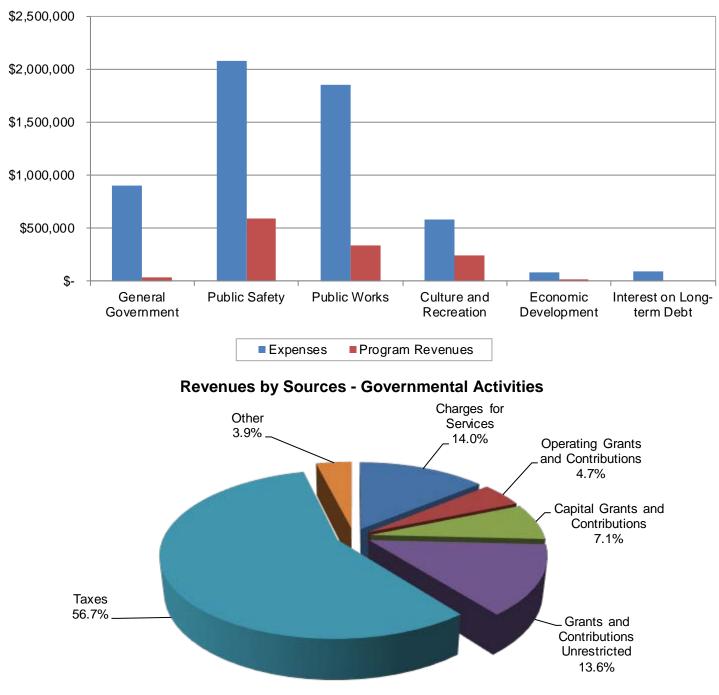

City of Isanti's Changes in Net Position

	Governmental Activities		Business-type Activities			
		Increase				Increase

•	-	(261,542)	261,542	- (202 522)	261,542	(261,542)
Transfers - Internal Activities	393,523	734,250	(340,727)	(393,523)	(734,250)	340,727
Change in Net Position	(448,760)	(533,411)	84,651	1,153,201	986,872	166,329
Net Position, January 1	17,484,665	18,018,076	(533,411)	27,088,728	26,101,856	986,872
Net Position, December 31	\$ 17,035,905	\$ 17,484,665	\$ (448,760)	\$ 28,241,929	\$ 27,088,728	\$ 1,153,201

• Property taxes decreased \$471,409 from the prior year in line with the City's budget and capital improvement plan.

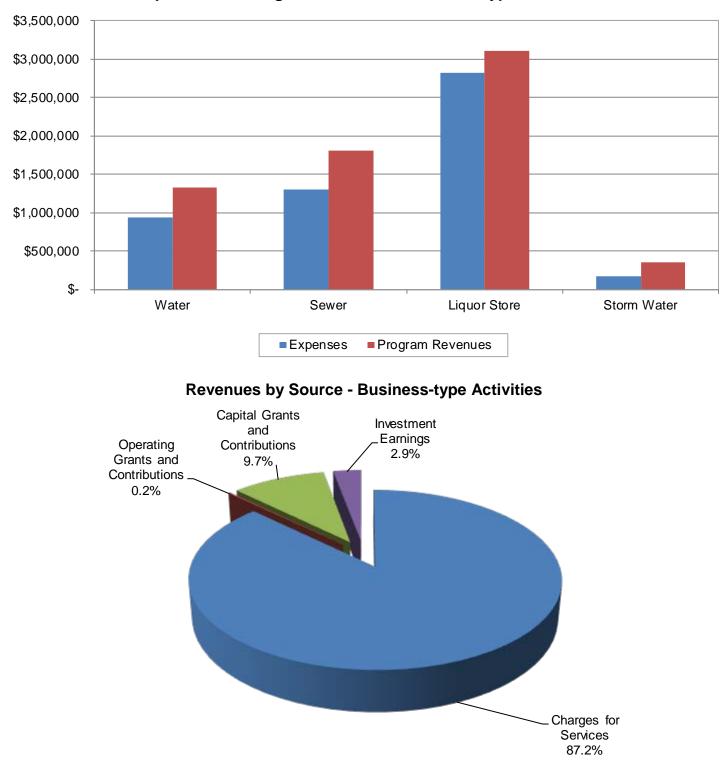

• Economic development expenses decreased \$1,235,637 during the year due to a business subsidy agreement the city had in 2018.

The following graph depicts various governmental activities and shows the revenues and expenses directly related to those activities.

Expenses and Program Revenues - Governmental Activities

Business-type Activities. Business-type activities increased the City's net position by \$1,153,201. The main reason for the increase was charges for services increased \$416,011 from the prior year. Additional information noted below:

Expenses and Program Revenues - Business-type Activities

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$4,546,376, an increase of \$471,632 in comparison with the prior year. Of this total amount, 15.6 percent, or \$708,644, constitutes unassigned fund balance, which is available for spending at the City's discretion. The remainder of fund balance of \$3,837,732 is not available for new spending because it is either 1) nonspendable (\$9,058), 2) restricted (\$1,440,248), 3) Assigned (\$1,778,774) or 4) committed (\$609,652). For further classification, refer to Note 3F on page 68 of this report.

The General fund is the chief operating fund of the City. As a measure of the General fund's liquidity, it may be useful to compare fund balance to total fund expenditures and transfers out. Fund balance represents 31.0 percent of budgeted 2019 expenditures and transfers out. Of the fund balance, \$1,254,221 is unassigned and will be used for cash flow for general operations and will be used to support operations until funds are received in June from the first tax settlement.

The Debt Service fund balance decreased \$145,105 during the year mainly due to regularly scheduled principal and interest payments exceeding sources during the year.

The Capital Replacement fund has an increase in fund balance of \$238,022 with an ending balance of \$797,706.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds at the end of the year amounted to \$7,136,237. Other factors concerning the finances of this fund have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The City's original General fund budget was amended during the year, increasing expenditures \$76,326 with a budget to decrease fund balance by \$598,703. Revenues were \$109,314 over budget. This is primarily due to licenses and permits being more than budgeted by \$43,798. Expenditures were under budget by \$189,299. The largest variance in the General fund expenditures is due to culture and recreation which was \$69,841 under budget.

Capital Assets and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business type activities as of December 31, 2019, amounts to \$45,435,126 (net of accumulated depreciation). This investment in capital assets includes land, structures, improvements, machinery and equipment, park facilities, roads and highways.

Major capital asset events during the current fiscal year included the following:

- 2018 Street Improvements that were finished and capitalized in 2019.
- 2019 Stormwater Improvements
- SCADA System Upgrades
- Water Chlorination System
- A/V Equipment (Council Chambers)
- Squad Vehicles and Police Equipment.

Minnesota statutes limit the amount of net general obligation debt a City may issue to three percent of the market value of taxable property within the City. Net debt is payable solely from ad valorem taxes and, therefore, excludes debt financed partially or entirely by special assessments, enterprise fund revenues, or tax increments. As of December 31, 2019, the City is under the legal debt margin.

Additional information on the City's long-term debt can be found in Note 3E starting on page 64 of this report.

Economic Factors and Next Year's Budgets and Rates

- Property tax valuations within the City increased in 2019 and have continued to increase for 2020.
- The 2019 budget includes a property tax levy of \$2,721,006 which is 12.69% higher than the 2019 levy but left the tax rate unchanged.
- The 2020 budget includes an amount for Local Government Aid in the amount of \$737,393.
- Franchise fees were implemented in 2016 to offset capital improvements, specifically pavement management costs.
- Isanti County has an average unemployment rate for 2019 of 4.1%. This compares with unemployment rates of 3.2% for the State of Minnesota and 3.7% for the United States.

All of these factors were considered in preparing the City's budget for the 2019 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, City of Isanti, 110 1st Avenue Northwest, PO Box 428, Isanti, Minnesota 55040.

The notes to the financial statements are an integral part of this statement.

City of Isanti, Minnesota Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds December 31, 2019

Amounts reported for the governmental activities in the statement of net position are different because

Total Fund Balances - Governmental Funds	\$ 4,546,376
Capital assets used in governmental activities are not financial resources	
and therefore are not reported as assets in governmental funds.	
Cost of capital assets	34,624,682
Less: accumulated depreciation	(17,579,813)
Noncurrent liabilities, including bonds payable, are not due and payable in the	
current period and therefore are not reported as liabilities in the funds.	
Noncurrent liabilities at year-end consist of	
Bond principal payable	(3,190,000)
Plus bond premium	(35,657)
Compensated absences payable	(173,241)
Other postemployment benefits payable	(198,139)
Pension liability	(1,410,848)
Some receivables are not available soon enough to pay for the current period's expenditures,	
and therefore are reported as unavailable revenue in the funds.	
Taxes receivable	27,604
Special assessments receivable	912,800
Governmental funds do not report long-term amounts related to pensions.	
Deferred outflows of pension resources	1,067,006
Deferred inflows of pension resources	(1,545,974)
Governmental funds do not report a liability for accrued interest until due and payable.	(8,891)
Total Net Position - Governmental Activities	\$ 17,035,905

The notes to the financial statements are an integral part of this statement.

City of Isanti, Minnesota Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities Governmental Funds For the Year Ended December 31, 2019

Amounts reported for governmental activities in the statement of activities are different because	
Total Net Change in Fund Balances - Governmental Funds	\$ 471,632
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense. Capital outlays Depreciation expense	346,218 (1,388,186)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Principal repayments Amortization of bond premium	570,000 3,502
	3,302
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	2,296
Long-term pension activity is not reported in governmental funds.	<i></i>
Pension expense Other post employment benefit expense	(13,500) (14,375)
Pension other revenue	10,520
Certain revenues are recognized as soon as they are earned. Under the modified accrual basis of accounting, certain revenues cannot be recognized until they are available to liquidate liabilities of the current period.	
Property taxes	(100,539)
Special assessments	(367,616)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
Compensated absences	 31,288
Change in Net Position - Governmental Activities	\$ (448,760)

Note 1: Summary of Significant Accounting Policies

A. Reporting Entity

The City of Isanti, Minnesota (the City) operates under "Optional Plan A" form of government as defined in the State of Minnesota statutes. The City is governed by an elected Mayor and four-member City Council. The City Council exercises legislative authority and determines all matters of policy. The City Council appoints personnel responsible for the proper administration of all affairs relating to the City.

The City has considered all potential units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the primary government. The blended component units, although legally separate entities are, in substance, part of the City's operations and so data from these units are combined with data of the City. The City has the following component unit:

Blended Component Unit. The Economic Development Authority (EDA) of the City was created pursuant to Minnesota statutes 469.090 through 469.108 to carry out economic and industrial development and redevelopment consistent with policies established by the City Council. The City has the authority to approve and modify the EDA's budget, and the City Council has the ability to veto, overrule, or modify the decisions of the EDA Board of Commissioners. The EDA is governed by a total of seven commissioners, two of which are residents and five are City Council members. The EDA activities are blended and reported as a special revenue fund due to substantively the same governing board and due to the City having operation responsibility. Separate financial statements are not issued for this component unit.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. *Governmental activities,* which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities,* which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and the fiduciary fund, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting,* as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note 1: Summary of Significant Accounting Policies (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlement and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are also recorded as unearned revenue.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The City reports the following major governmental funds:

The *General fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service funds* account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the City is obligated in some manner for the payment.

The Capital Replacement fund is the City's capital fund. It accounts for costs associated with capital projects within the City.

The City reports the following major proprietary funds:

The *Water fund* accounts for the costs associated with the City's water system and ensure that user charges are sufficient to pay for those costs.

The *Sewer fund* accounts for the costs associated with the City's sewer system and ensure that user charges are sufficient to pay for those costs.

The Liquor Store fund accounts for the costs associated with the City's liquor operations.

Note 1: Summary of Significant Accounting Policies (Continued)

As a general rule the effect of interfund activity has been eliminated from government-wide financial statements.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The proprietary funds' portion in the government-wide cash and temporary investments pool is considered to be cash and cash equivalents for purposes of the statement of cash flows.

Cash balances from all funds are pooled and invested, to the extent available, in certificates of deposit and other authorized investments. It is the City's policy to refrain from investing in banks, savings and loan associations or credit unions whose equity to asset ratio is less than 10 percent. Earnings from such investments are allocated on the basis of applicable participation by each of the funds.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The City's recurring fair value measurements are listed in detail on page 59.

The City has the following recurring fair value measurements as of December 31, 2019:

- US Treasury securities of \$798,820 are valued using quoted market prices (Level 2 inputs)
- Negotiable certificates of deposit of \$5,204,058 are valued using a matrix pricing model (Level 1 inputs)

Note 1: Summary of Significant Accounting Policies (Continued)

The City may invest idle funds as authorized by Minnesota statutes, as follows:

- 1. Direct obligations or obligations guaranteed by the United States or its agencies.
- 2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, rated in one of the two highest rating categories by a statistical rating agency, and have a final maturity of thirteen months or less.
- 3. General obligations of a state or local government with taxing powers rated "A" or better; revenue obligations rated "AA" or better.
- 4. General obligations of the Minnesota Housing Finance Agency rated "A" or better.
- 5. Obligation of a school district with an original maturity not exceeding 13 months and (i) rated in the highest category by a national bond rating service or (ii) enrolled in the credit enhancement program pursuant to statute section 126C.55.
- 6. Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.
- 7. Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
- 8. Repurchase or reverse repurchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
- 9. Guaranteed investment contracts (GIC's) issued or guaranteed by a United States commercial bank, a domestic branch of a foreign bank, a United States insurance company, or its Canadian subsidiary, whose similar debt obligations were rated in one of the top two rating categories by a nationally recognized rating agency.

Investment Policy

The City's investment policy incorporates Minnesota statutes as described above which reduces the City's exposure to credit, custodial credit and interest rate risks. Specific risk information for the City is as follows:

- *Credit Risk* is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Ratings provided by various credit rating agencies where applicable indicate associated credit risk. The City's investments in Government Agencies are fully backed by the U.S. Government and are rated AAA.
- Custodial Credit Risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City limits its exposure to custodial credit risk by purchasing insured or registered investments. It is the City's policy to refrain from investing in banks, savings and loan associations or credit unions whose equity to asset ratio is less than 10%.
- Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a
 government's investment in a single issuer. The City limits investments in any one institution to 5%. The City has
 invested more than 5 percent of investments in the following issuers: Federal Home Loan Mortgage Corporation
 (8.31%).
- Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Using the segmented time distribution method, the interest rate risk of these investments ranges from less than 6 months to more than 3 years.

Note 1: Summary of Significant Accounting Policies (Continued)

Property Taxes

The City Council annually adopts a tax levy in December and certifies it to the County for collection in the following year. The County is responsible for collecting all property taxes for the City. These taxes attach an enforceable lien on taxable property within the City on January 1 and are payable by the property owners in two installments. The taxes are collected by the County Auditor and tax settlements are made to the City during January, July and December each year.

Delinquent taxes receivable include the past six years' uncollected taxes. Delinquent taxes have been offset by a deferred inflow of resources for taxes not received within 60 days after year end in the governmental fund financial statements.

Accounts Receivable

Accounts receivable include amounts billed for services provided before year end. Unbilled utility enterprise fund receivables are also included for services provided in 2019. The City annually certifies delinquent water and sewer accounts to the County for collection in the following year. Therefore, there has been no allowance for doubtful accounts established.

Special Assessments

Special assessments represent the financing for public improvements paid for by benefiting property owners. These assessments are recorded as receivables upon certification to the County. Special assessments are recognized as revenue when they are received in cash or within 60 days after year end. All special assessments receivable are offset by a deferred inflow of resources in the governmental fund financial statements.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Inventories and Prepaid Items

Inventories are valued at lower of cost or market, using the first-in, first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Land Held for Resale

Land held for resale is valued at the lower of the cost or the market value of the property.

Note 1: Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year.

In the case of initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the City chose to include items dating back to June 30, 1980. The City was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the City constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations the City values these capital assets at the acquisition value of the item at the date of its donation.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Useful Lives in Years
Buildings and Structures	40
Infrastructure	10 to 50
Furniture and Equipment	3 to 20
Improvements other than Buildings	10 to 20

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has only one item that qualifies for reporting in this category. Accordingly, the item, deferred pension resources, is reported only in the statements of net position. This item results from actuarial calculations and current year pension contributions made subsequent to the measurement date.

Pensions

Pe

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General fund is typically used to liquidate the governmental net pension liability.

The total pension expense for the GERP and PEPFP was as follows:

						Total	
		GERP		PEPFP	Pension Expen		
	•		•		•		
ension Expense	\$	242,525	\$	143,822	\$	386,347	

Note 1: Summary of Significant Accounting Policies (Continued)

Compensated Absences

It is the City's policy to permit employees to accumulate a limited amount of earned but unused vacation, which is paid to the employee upon separation. A portion of unused sick leave may also be paid upon separation from City service. In governmental fund types the cost of these benefits is recognized when payments are made to the employees. The General fund is typically used to liquidate governmental compensated absences payable.

Postemployment Benefits other than Pensions

Under Minnesota statue 471.61, subdivision 2b., public employers must allow retirees and their dependents to continue coverage indefinitely in an employer-sponsored health care plan, under the following conditions: 1) Retirees must be receiving (or eligible to receive) an annuity from a Minnesota public pension plan, 2) Coverage must continue in a group plan until age 65, and retirees must pay no more than the group premium, and 3) Retirees may obtain dependent coverage immediately before retirement. All premiums are funded on a pay-as-you-go basis. The liability was actuarially determined, in accordance with GASB 75, at January 1, 2019. The General fund is typically used to liquidate governmental other postemployment benefits payable.

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. The recognition of bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three types of items, *unavailable revenue* and *resources received in advance*, and *deferred pension resources*.

- Unavailable revenue arises only under a modified accrual basis of accounting that qualifies as needing to be reported in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Resources received in advance is reported in both the governmental fund financial statements and within the government-wide financial statements. This item is reported for amounts that have been received before time requirements are met, but after all other eligibility requirements have been met.
- Deferred pension resources is reported only in the statements of net position and results from actuarial calculations.

Note 1: Summary of Significant Accounting Policies (Continued)

The City has an additional item which qualifies for reporting in this category. The item, deferred pension resources, is reported only in the statements of net position and results from actuarial calculations.

Furthermore, the City has additional items which qualify for reporting in this category on the statement of net position. The items, deferred pension resources and deferred other postemployment benefit resources, are reported only in the statement of net position and results from actuarial calculations involving net differences between projected and actual earnings on plan investments and changes in proportions.

Fund Balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the City Council, which is the City's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the City Council modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General fund, assigned fund balance represents all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the General fund, assigned amounts represent intended uses established by the City Council itself or by an official to which the governing body delegates the authority. The City Council has adopted a fund balance policy which delegates the authority to assign amounts for specific purposes to the Finance Committee.

Unassigned - The residual classification for the General fund and also negative residual amounts in other funds.

The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made. The City has formally adopted a fund balance policy for the General fund. The City's policy is to maintain a minimum unassigned fund balance of 50 percent of the following year's budgeted expenditures and transfers out.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is displayed in three components:

- a. Net investment in capital assets Consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- b. Restricted net position Consists of net position balances restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- c. Unrestricted net position All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets".

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 2: Stewardship, Compliance and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General fund and Economic Development Authority. All annual appropriations lapse at year end. The City does not use encumbrance accounting.

In May of each year, all departments of the City submit requests for appropriations to the City Administrator so that a budget may be prepared. Before September 30, the proposed budget is presented to the City Council for review. The City Council holds public hearings and a final budget is prepared and adopted in early December.

The appropriated budget is prepared by fund, function and department. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the City Council. The legal level of budgetary control is the department level. The original budget was amended in 2019 increasing expenditures \$76,326 for a total budgeted decrease in fund balance of \$598,703.

B. Deficit Fund Equity

The following funds had deficit fund equity at December 31, 2019:

Fund	Amount
Nonmajor	
Isanti Indoor Arena	\$ 167,588
Street Construction	15,328
City Parking Improvements	74,687
2017 Palomino Road Southeast Improvements	287,974

These deficits will be eliminated with future state aid, franchise taxes and transfers from other funds.

Note 3: Detailed Notes on All Funds

A. Deposits and Investments

Deposits

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the City's deposits and investments may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the City Council, the City maintains deposits at those depository banks, all of which are members of the Federal Reserve System.

Minnesota statutes require that all City deposits be protected by insurance, surety bond or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance, bonds, or irrevocable standby letters of credit from Federal Home Loan Banks. Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- General obligation securities of any state or local government with taxing powers which is rated "A" or better by a
 national bond rating service, or revenue obligation securities of any state or local government with taxing powers
 which is rated "AA" or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard & Poor's Corporation; and
- Time deposits that are fully insured by any federal agency.

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the City.

At year end, the City's carrying amount of deposits was \$6,642,742 and the bank balance was \$6,843,987. Of the bank balance, \$500,000 was covered by Federal depository insurance, \$2,241 was covered by National Credit Union Share Insurance Fund coverage, and the remaining balance was collateral held in the City's name.

Note 3: Detailed Notes on All Funds (Continued)

At year end, the City's investment balances were as follows:

	Credit Quality/	Segmented Time		Fa	ir Value Mea	surer	nent Using
Types of Investments	Ratings (1)	Distribution (2)	Amount		Level 1		Level 2
Pooled Investments at Amortized Cost							
Broker Money Markets	N/A	Less than 1 year	\$ 14,439	\$	-	\$	-
Non-pooled Investments at Fair Value							
Negotiable CDs	N/A	Less than 1 year	1,138,021		1,138,021		-
Negotiable CDs	N/A	1 to 5 years	3,809,240		3,809,240		-
Negotiable CDs	N/A	More than 5 years	256,797		256,797		-
U.S. Government Agency Securities	AAA	1 to 5 years	798,820		-		798,820
Total Investments			\$ 6,017,317	\$	5,204,058	\$	798,820

(1) Ratings are provided by various credit rating agencies where applicable to indicate associated credit risk.

(2) Interest rate risk is disclosed using the segmented time distribution method.

N/A Indicates not applicable or available.

A reconciliation of cash and investments as shown on the statement of net position for the City follows:

Carrying Amount of Deposits Investments Cash on Hand	\$ 6,642,742 6,017,317
Total	\$ 12,663,284
Cash and Temporary Investments Unrestricted	<u>\$ 12,663,284</u>

Note 3: Detailed Notes on All Funds (Continued)

B. Loans Receivable

In 2011, the City's Revolving Loan fund loaned \$50,000 to H.M. Chris, LLC for 10 years at 3 percent interest. The monthly payment is \$529. As of December 31, 2019, the loan receivable was \$9,297.

In 2012, the City's Revolving Loan fund loaned \$22,500 to K & D Investments for 10 years at 3 percent interest. The monthly payment is \$298. The loan was paid in full in 2019.

In 2013, the City's Revolving Loan fund loaned \$25,000 to the Isanti Parkway Center for 7 years at 3 percent interest. The monthly payment is \$331. As of December 31, 2019, the loan receivable was \$2,286.

In 2015, the City's Revolving Loan fund loaned \$427,000 to Mom's Food Co-op Inc. for 7 years at zero percent interest. The monthly payment is \$321. As of December 31, 2019, the loan receivable was \$169,167.

In 2016, the City's Revolving Loan fund loaned \$15,000 to RPF, LLC for 7 years at 3 percent interest. The monthly payment is \$199. As of December 31, 2019, the loan receivable was \$7,910.

C. Interfund Receivables, Payables and Transfers

In 2009, the Sewer enterprise fund advanced funds to the General fund to cover the City portion of the 2009 Street Improvements. Future General fund property tax levies will be utilized to repay the advance. Repayments will include interest of 3.25 percent. An additional \$23,274 was borrowed between the funds in 2010. The loan was paid in full in 2019.

In 2011, the Water and Sewer enterprise funds each loaned \$15,897 to the General fund to cover the City portion of the Deer Haven Improvements. General fund property tax levies will be utilized to repay these advances. Repayments are interest free. The outstanding balance at December 31, 2019 is \$6,357.

In 2016, the General fund loaned \$25,060 to the TIF 9 nonmajor governmental fund to cover demolition costs. Future tax increment or land sale proceeds will be utilized to repay these advances. Repayments are interest free. The outstanding balance at December 31, 2019 is \$25,060.

In 2017, the Liquor fund loaned \$107,237 to the General fund to cover land purchase costs. Future land sale proceeds will be utilized to repay these advances. Repayments are interest free. The outstanding balance at December 31, 2019 is \$53,619.

In 2018, the Liquor fund loaned \$257,652 to the General fund to cover the 2018 Street and Utility Improvement Project. The loan is expected to be paid back over a ten year period from future levy dollars. Repayments are interest free. The outstanding balance at December 31, 2019 is \$257,652.

In 2018, the Water and Sewer funds loaned \$283,300 and \$566,700, respectively to the General fund for the business subsidy agreement relating to City development. The loan is expected to be paid back over a ten year period from future levy dollars. Repayments are interest free. The outstanding balance at December 31, 2019 is \$765,000.

Note 3: Detailed Notes on All Funds (Continued)

Interfund Transfers

The following interfund transfers were made during 2019:

				Tr	ransfer in				
			Debt		Capital	Ν	lonmajor		
Fund	G	eneral	 Service	Re	placement	Gov	vernmental	_	Total
Transfer Out									
General	\$	-	\$ -	\$	36,500	\$	87,124	\$	123,624

Sewer		-	39,190		-		-		39,190
Liquor Store		350,000	 -		-				350,000
Total Transfers In	\$	369,150	\$ 43,523	\$	182,159	\$	559,124	\$	1,153,956

During the year ended December 31, 2019, the City made the following one-time transfer:

- Transfer of \$375,394 from nonmajor governmental funds to nonmajor governmental funds to close fund 420.
- Transfer of \$4,802 from nonmajor governmental funds to Capital Replacement fund to close fund 434.
- Transfer of \$96,066 from Capital Replacement fund to nonmajor governmental funds for future road improvements.
- Transfer of \$140,857 from Debt Service fund to Capital Replacement fund for future capital projects.

Note 3: Detailed Notes on All Funds (Continued)

D. Capital Assets

Capital asset activity for the year ended December 31, 2019 was as follows:

	Beginning Balance	Adjustment/ Reclassification	Increases	Decreases	Ending Balance
Governmental Activities					
Capital Assets not being Depreciated	¢ 0.404.000	¢	¢	¢	¢ 0.404.000

Note 3: Detailed Notes on All Funds (Continued)

E. Long-term Debt

General Obligation (G.O.) Bonds

The City issues G.O. bonds to provide funds for the acquisition and construction of major capital facilities. G.O. bonds have been issued for both general government and business-type activities. These bonds are reported in the proprietary funds if they are expected to be repaid from proprietary fund revenues. In addition, bonds have been issued to refund G.O. bonds.

G.O. bonds are direct obligations and pledge the full faith and credit of the government. G.O. bonds currently outstanding are as follows:

Description	Authorized and Issued	Interest Rate	lssue Date	Maturity Date	Balance at Year End
G.O. Tax Abatement Bonds, Series 2014A G.O. Bonds, Series 2014B	\$ 2,560,000 1,420,000	0.50 - 2.50 % 0.50 - 2.50	10/01/14 10/01/14	02/01/30 02/01/24	\$ 1,965,000 225,000

Total G.O. Bonds

\$ 2,190,000

Annual debt service requirements to maturity for the G.O. bonds are as follows:

Year Ending	Governmental Activities						
December 31,	Principal	Interest	Total				
2020	\$ 205,000	\$ 55,266	\$ 260,266

2030	200,000	3,500	203,500				
Total	\$ 2,190,000	\$ 345,774	\$ 2,535,774				

Note 3: Detailed Notes on All Funds (Continued)

G.O. Revenue Bonds

The following bonds were issued to finance capital improvements in the enterprise funds. They will be repaid from future net revenues pledged from the Water and Sewer funds and are backed by the taxing power of the City. Annual principal and interest payments on the bonds and enterprise G.O. improvement bonds are expected to require over 87 and 51 percent of net revenues from the Water and Sewer funds, respectively. Principal and interest paid for 2019 and total customer net revenues for the Water fund were \$520,199 and \$1,077,961, respectively. Principal and interest paid for 2019 and total customer net revenues for the Sewer fund were \$225,771 and \$1,382,297 respectively.

Description	Authorized and Issued	Interest Rate	lssue Date	Maturity Date	Balance at Year End
MPFA - Water Revenue					
Bonds, Series 2007A	\$ 965,000	2.63 %	07/10/08	08/20/26	\$ 415,000
MPFA - Water Revenue					
Bonds, Series 2008	5,064,256	3.04	10/07/08	08/20/28	2,693,056
G.O. Utility Revenue					
Bonds, Series 2010A	835,000	2.00 - 3.70	07/01/10	12/01/24	310,000
MPFA - Water Revenue					
Bonds, Series 2011	479,047	1.533	11/23/11	08/20/31	437,000
G.O. Utility Revenue					
Bonds, Series 2014B	1,030,000	0.50 - 2.50	10/01/14	02/01/25	645,000
MPFA - Sewer Revenue					
Bonds, Series 2016A	2,525,000	2.00	07/15/16	12/01/29	2,390,000
Total G.O. Revenue Bonds					\$ 6,890,056

Annual debt service requirements to maturity for the G.O. revenue bonds are as follows:

Year Ending	Business-type Activities							
December 31,	Principal		Interest		Total			
2020	\$ 728,000	\$	170,504	\$	898,504

Total	<u>\$ 6,890,056</u>	\$	863,448	\$	7,753,504			

Note 3: Detailed Notes on All Funds (Continued)

G.O. Improvement (Special Assessment) Bonds

The following bonds were issued to finance various improvements and will be repaid from special assessments levied on the properties benefiting from the improvements and/or ad valorem tax levies. All special assessment debt is backed by the full faith and credit of the City. Each year the combined assessment and tax levy equals 105 percent of the amount required for debt service. The excess of 5 percent is to cover any delinquencies in tax or assessment payments. The business-type bonds will be repaid from special assessments and future net revenues pledged from the Water and Sewer funds and are backed by the taxing power of the City.

Description	Authorized and Issued	Interest Rate	lssue Date	Maturity Date		alance at ear End

Note 4: Defined Benefit Pension Plans - Statewide

A. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota statutes, chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan (GERP)

All full-time and certain part-time employees of the City are covered by the General Employees Retirement Plan (GERP). GERP members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

Public Employees Police and Fire Plan (PEPFP)

The PEPFP, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFP also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

B. Benefits Provided

PERA provides retirement, disability and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

GERP Benefits

GERP benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989 receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent for average salary for all years of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989 normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. If the General Employees Plan is at least 90 percent funded for two consecutive years, benefit recipients are given a 2.5 percent increase. If the plan has not exceeded 90 percent funded, or have fallen below 80 percent, benefit recipients are given a one percent increase. A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30 will receive a full increase. Members receiving benefits for at least one month but less than 12 full months as of June 30 will receive a pro rata increase.

PEPFP Benefits

Benefits for the PEPFP members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for PEPFP members first hired after June 30, 2014 vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3.0 percent of average salary for each year of service. A full, unreduced pension is earned when members are age 55 and vested, or for members who were first hired prior to July 1, 1989, when age plus years of service equal at least 90.

Annuities, disability benefits and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be fixed at 1 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase-will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota statutes chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

General Employees Fund Contributions

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2019 and the City was required to contribute 7.50 percent for Coordinated Plan members. The City's contributions to the General Employees Fund for the years ending December 31, 2019, 2018 and 2017 were \$112,189, \$108,556 and \$104,864, respectively. The City's contributions were equal to the required contributions for each year as set by state statute.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

Police and Fire Fund Contributions

Police and Fire member's contribution rates increased from 10.80 percent of pay to 11.30 percent and employer rates increased from 16.20 percent to 16.95 percent on January 1, 2019. The City's contributions to the Police and Fire Fund for the years ending December 31, 2019, 2018 and 2017 were \$113,940, \$104,226 and \$113,975, respectively. The City's contributions were equal to the required contributions for each year as set by state statute.

D. Pension Costs

General Employees Fund Pension Costs

At December 31, 2019, the City reported a liability of \$1,127,870 for its proportionate share of the General Employees Fund's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2019. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$35,165. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability associated for employer payroll paid dates from July 1, 2018 through June 30, 2019 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2019, the City's proportionate share was 0.0204 percent which was a decrease of 0.0014 percent from its proportion measured as of June 30, 2018.

For the year ended December 31, 2019, the City recognized pension expense of \$239,891 for its proportionate share of General Employees Fund's pension expense. In addition, the City recognized an additional \$2,634 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

At December 31, 2019, the City reported its proportionate share of General Employees Plan's deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the following sources:

	Ċ	Deferred Outflows of Resources		Deferred Inflows Resources
Differences Between Expected and				
Actual Economic Experience	\$	44,212	\$	2,305
Changes in Actuarial Assumptions		6,525		98,420
Net Difference Between Projected and				
Actual Earnings on Plan Investments		-		127,569
Changes in Proportion		14,062		65,340
Contributions Paid to PERA Subsequent				
to the Measurement Date		61,682		-
Total	\$	126,481	\$	293,634

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

The \$61,682 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2020	\$ (71,796)
2021	(110,959)
2022	(47,896)
2023	1,816

Police and Fire Fund Pension Costs

At December 31, 2019, the City reported a liability of \$698,378 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2018 through June 30, 2019 relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2019, the City's proportionate share was 0.0656 percent which was an increase of 0.0014 percent from its proportionate share measured as of June 30, 2018.

For the year ended December 31, 2019, the City recognized pension expense of \$134,966 for its proportionate share of the Police and Fire Plan's pension expense. The City also recognized \$8,856 for the year ended December 31, 2019, as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the Police and Fire Fund. Legislation passed in 2013 required the State of Minnesota to begin contributing \$9 million to the Police and Fire Fund each year until the plan is 90 percent funded or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later. In addition, the state will pay \$4.5 million on October 1, 2018 and October 1, 2019 in direct state aid. Thereafter, by October 1 of each year, the state will pay \$9 million until full funding is reached or July 1, 2048, whichever is earlier.

At December 31, 2019, the City reported its proportionate share of Police and Fire Plan's deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the following sources:

	(Deferred Outflows of Resources		Deferred Inflows Resources
Differences Between Expected and				
Actual Economic Experience	\$	59,253	\$	130,261
Changes in Actuarial Assumptions		761,222		975,882
Net Difference Between Projected and				
Actual Earnings on Plan Investments		-		150,516
Changes in Proportion		107,686		103,829
Contributions Paid to PERA Subsequent				
to the Measurement Date		58,947		-
Total	\$	987,108	\$	1,360,488

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

The \$58,947 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2020	\$ (40,266)
2021	(91,796)
2022	(290,805)
2023	(19,902)
2024	10,442

E. Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.50% per year
Active Member Payroll Growth	3.25% per year
Investment Rate of Return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases for retirees are assumed to be 1.25 percent per year for General Employees Plan and 1.0 percent per year for Police and Fire Plan.

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. The most recent four-year experience study for Police and Fire Plan was completed in 2016. Economic assumptions were updated in 2018 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions and plan provisions occurred in 2019:

General Employees Fund

Changes in Actuarial Assumptions

• The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

• The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

Police and Fire Fund

Changes in Actuarial Assumptions

• The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

• There have been no changes since the prior valuation.

Note 4: Defined Benefit Pension Plans - Statewide (Continued)

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	35.5 %	5.10 %
Private Markets	25.0	5.30
Fixed Income	20.0	0.75
International Equity	17.5	5.90
Cash Equivalents	2.0	-
Total	<u> 100.00 </u> %	

F. Discount Rate

The discount rate used to measure the total pension liability in 2019 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund and the Police and Fire Fund were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

		1 Percent ease (6.50%)	Cur	rent (7.50%)	1 Percent Increase (8.50%)	
General Employees Fund Police and Fire Fund	\$	1,854,158 1,526,525	\$	1,127,870 698,378	\$	528,175 14

H. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <u>www.mnpera.org</u>.

Note 5: Postemployment Benefits Other Than Pensions

A. Plan Description

The City operates a single-employer retiree benefit plan ("the Plan") that provides health, life and dental insurance to eligible employees and their families through the City's health insurance plan. The full cost of the benefits is covered by the plan. Benefit and eligibility provisions are established through negotiations between the City and various unions representing City employees and are renegotiated each two-year bargaining period. The Plan does not issue a publicly available report. At December 31, 2019, the 31 active plan members/employees were covered by the benefit terms.

B. Funding Policy

OPEB benefits have historically been funded on a pay-as-you-go basis (PAYGO). Plan sponsors may set up a trust and pre-fund the benefits. There is no requirement to pre-fund benefit. However, continuing on a PAYGO basis will create a Total OPEB Liability (TOL) on the balance sheet. Results throughout the report assume continued funding under PAYGO. The overall single discount rate is 3.30%.

C. Actuarial Methods and Assumptions

The City's total OPEB liability of \$313,352 was measured as of December 31, 2019, and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation as of January 1, 2019. Roll forward procedures were used to roll forward the total OPEB liability to the measurement date.

The total OPEB liability in the January 1, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	3.30%
20-Year Municipal Bond Yield	3.30%
Inflation Rate	2.50%
Salary Increases	3.00%
Medical Trend Rate	6.50% as of January 1, 2019 grading to 5.00% over 6 years

The discount rate is based on the estimated yield of 20-Year AA-rated municipal bonds. The overall single discount rate is 3.30%. Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale. The actuarial assumptions used in the December 31, 2018 valuation were based on input from a variety of published sources of historical and projected future financial data. Each assumption was reviewed for reasonableness with the source information as well as for consistency with the other economic assumptions.

D. Changes in the Total OPEB Liability

	Total OPEB Liability (a)
Balances at December 31, 2018	\$ 275,219
Changes for the Year:	
Service cost	28,959
Interset	10,024
Benefit payments	(850)
Net Changes	38,133
Balances at December 31, 2019	<u>\$ 313,352</u>

There are no assumption changes.

Note 5: Postemployment Benefits other than Pensions (Continued)

E. Sensitivity of the Total OPEB Liability

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.30 percent) or 1-percentage-point higher (4.30 percent) than the current discount rate:

1 Percent				1 F	Percent
Dec	rease (2.3%)	Curr	rent (3.3%)	Increa	ase (4.3%)
\$	341,858	\$	313,352	\$	286,752

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a Healthcare Cost Trent Rates that is 1-percentage point lower (5.50 percent decreasing to 4.00 percent) or 1-percentage-point higher (7.50 percent increasing to 6.00 percent) than the current discount rate:

		Heal	thcare Cost		
1 Percent Decrease		Tre	end Rates	1 Perce	ent Increase
(5.5% Decreasing			Decreasing	(7.5% Decreasing	
	to 4%)		to 5%)	tc	o 6%)
\$	271,483	\$	313,352	\$	362,887

F. OPEB Expense

For the year ended December 31, 2019, the City recognized OPEB expense of \$38,983. There are no deferred inflows or outflows associated with the OPEB plan.

Note 6: Other Information

A. Legal Debt Margin

In accordance with Minnesota statutes, the City may not incur or be subject to net debt in excess of three percent of the estimated market value of taxable property within the City. Net debt is payable solely from ad valorem taxes and, therefore, excludes debt financed partially or entirely by special assessments, enterprise fund revenues, or tax increments. As of December 31, 2019, the City is under the legal debt margin.

B. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries insurance. The City obtains insurance through participation in the League of Minnesota Cities Insurance Trust (LMCIT), which is a risk sharing pool with approximately 800 other governmental units. The City pays an annual premium to LMCIT for its workers compensation and property and casualty insurance. The LMCIT is self-sustaining through member premiums and will reinsure for claims above a prescribed dollar amount for each insurance event. Settled claims have not exceeded the City's coverage in any of the past three fiscal years.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities, if any, include an amount for claims that have been incurred but not reported (IBNRs). The City's management is not aware of any incurred but not reported claims.

Note 6: Other Information (Continued)

C. Isanti Area Joint Operating Fire Board District

In October of 2002, the City and the towns of Athens, Bradford, Isanti, Oxford, Spencer Brook and Stanford, entered a joint powers agreement to acquire and pay for new fire department substations in the townships. The City shall deposit in advance quarterly contributions with the treasurer of the Isanti Area Joint Operating Fire fund. The amount of the quarterly contributions to the fund shall be according to the proportions established in the fire protection contract. Upon termination of the agreement, any real property or buildings owned by the Board shall become the sole property of the City or Township in which the property lies. The City contributed \$231,246 to the Board in 2019. The City's equity interest and its share of the net income (loss) of the District is not measurable and it is not explicit; therefore, no equity interest is reported in the government-wide financial statements.

D. Cambridge-Isanti Bike-Walk Trail

On September 8, 2008, the City entered into a joint and cooperative agreement with Isanti County, Isanti Township, and the City of Cambridge for the construction, operation, and maintenance of a bike-walk trail that connects the cities of Cambridge and Isanti. The trail was constructed with Federal and State grants received by Isanti County and the City of Cambridge. Isanti is responsible for maintaining and operating the part of the trail lying south of the centerline of the right of way of 301st Avenue. The agreement will terminate after 20 years. The City contributed \$7,500 to the cooperative during 2019.

E. North Trunk Highway 65 Corridor Coalition

On September 19, 2006, the City of Isanti joined the North Trunk Highway 65 Corridor Coalition. The Coalition consists of cities, counties, and towns from Highway 10 in Blaine to the northern reaches of Kanabec County. The agreement states that the City must support the preservation and upgrade of the corridor to meet future transportation needs for various modes including, but not limited to, highway improvements, bus improvements, commuter, freight rail, multi-use paths, and Intelligent Transportation Systems (ITS).

Note 7: Commitments and Contingencies

A. Concentrations

The City receives a significant amount of its annual General fund revenue from the State of Minnesota from the Local Government Aid (LGA). The amount received in 2019 was \$635,435 for LGA. This accounted for 19.0 percent of General fund revenues.

B. Tax Increment Districts

The City's tax increment districts are subject to review by the State of Minnesota Office of the State Auditor (OSA). Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance which would have a material effect on the financial statements.

Note 8: Subsequent Event

In December 2019, a novel strain of coronavirus (COVID-19) surfaced. The spread of COVID-19 around the world in the first quarter of 2020 has caused significant volatility in U.S. and international markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on the U.S. and international economies and, as such, the Company is unable to determine if it will have a material impact to its operations.

Notes to the Required Supplementary Information - General Employee Fund

Changes in Actuarial Assumptions

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 - The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability. The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent. Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

Changes in plan provisions

2019 - The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 - The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Contribution stabilizer provisions were repealed. Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter. The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

2015 - On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Notes to the Required Supplementary Information - Police and Fire Fund

Changes in Actuarial Assumptions

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2016 to MP-2017.

2017 - Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The Combined Service Annuity (CSA) load was 30 percent for vested and non-vested deferred members. The CSA has been changed to 33 percent for vested members and 2 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.0 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65 percent to 60 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.6 percent to 7.5 percent.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2037 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 5.6 percent. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2037 and 2.5 percent per year thereafter.

Changes in plan provisions

2018 - As set by statute, the assumed post-retirement benefit increase was changed from 1.0 percent per year through 2064 and 2.5 percent per year, thereafter, to 1.0 percent for all years, with no trigger. An end date of July 1, 2048 was added to the existing \$9.0 million state contribution. New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter until the plan reaches 100 percent funding, or July 1, 2048, if earlier. Member contributions were changed from 10.80 percent to 11.30 percent of pay, effective January 1, 2019 and 11.80 percent of pay, effective January 1, 2019 and 17.70 percent of pay, effective January 1, 2020. Employer contributions were changed from 16.20 percent to 16.95 percent of pay, effective January 1, 2019 and 17.70 percent of pay, effective January 1, 2020. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

Notes to the Required Supplementary Information - Police and Fire Fund (Continued)

2017- Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The combined service annuity (CSA) load was 30.00 percent for vested and non-vested, deferred members. The CSA has been changed to 33.00 percent for vested members and 2.00 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.00 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65.00 percent to 60.00 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed postretirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.60 percent per annum to 7.50 percent per annum.

2015 - The post-retirement benefit increase to be paid after attainment of the 90 percent funding threshold was changed, from inflation up to 2.5 percent, to a fixed rate of 2.5 percent.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

Honorable Mayor and City Council City of Isanti, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Isanti, Minnesota (the City) as of and for the year ended December 31, 2019, and the related notes to the financial statements, and have issued our report thereon dated April 1, 2020.

In connection with our audit, nothing came to our attention that caused us to believe that the City of Isanti failed to comply with the provisions of the contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing sections of the *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

This report is intended solely for the information and use of those charged with governance and management of the City and the State Auditor and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and City Council City of Isanti, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Isanti, Minnesota (the City), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated April 1, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified However, as described in the accompanying Schedule of Finding and Response, we identified certain deficiencies in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Finding and Response as item 2019-001 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance and identified no other matters that are required to be reported under *Government Auditing Standards*.

The City's Response to the Finding

The City's response to the finding identified in our audit are described in the accompanying Schedule of Finding and Response. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BLANK INTENTIONALLY

City of Isanti, Minnesota Schedule of Finding and Response For the Year Ended December 31, 2019

Finding Description

2019-001 Preparation of Financial Statements

- Condition: As in prior years, we were requested to draft the audited financial statements and related footnote disclosures as part of our regular audit services. Recent auditing standards require auditors to communicate this situation to the City Council as an internal control deficiency. Ultimately, it is management's responsibility to provide for the preparation of your statements and footnotes, and the responsibility of the auditor to determine the fairness of presentation of those statements. It is our responsibility to inform you that this deficiency could result in a material misstatement to the financial statements that could have been prevented or detected by your management. Essentially, the auditors cannot be part of your internal control process.
- *Criteria:* Internal controls should be in place to provide reasonable assurance over the reliability of financial records and reporting.
- Cause: From a practical standpoint, we both prepare your statements and determine the fairness of that presentation at the same time in connection with our audit. This is not unusual for us to do with organizations of your size.
- *Effect:* The effectiveness of the internal control system relies on enforcement by management. The effect of deficiencies in internal controls can result in undetected errors in financial reporting. We have instructed management to review a draft of the auditor prepared financials in detail for accuracy; we have answered any questions that management might have, and have encouraged research of any accounting guidance in connection with the adequacy and appropriateness of classification of disclosures in your statements. We are satisfied that the appropriate steps have been taken to provide you with the completed financial statements.
- *Recommendation:* Under these circumstances, the most effective controls lie in management's knowledge of the City's financial operations. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost and other considerations. Regarding the specific situations listed above, we would offer the following specific recommendations: 1) Utilize a disclosure checklist to ensure all required disclosures are present and agree to work papers, and 2) Agree your accounting information from your accounting software to the amounts reported in the financial statements.

Management Response:

For now, the City accepts the degree of risk associated with this condition and thoroughly reviews a draft of the financial statements.
